Undergraduate Course Sections with Fewer than 20 Students

National publications which compare institutions of higher education have focused attention on the percentage of courses that enroll fewer than 20 students. The increase in our percentage of such sections from Fall 1998 to Fall 1999 is due to a more refined method of counting the sections.

Class Size Report

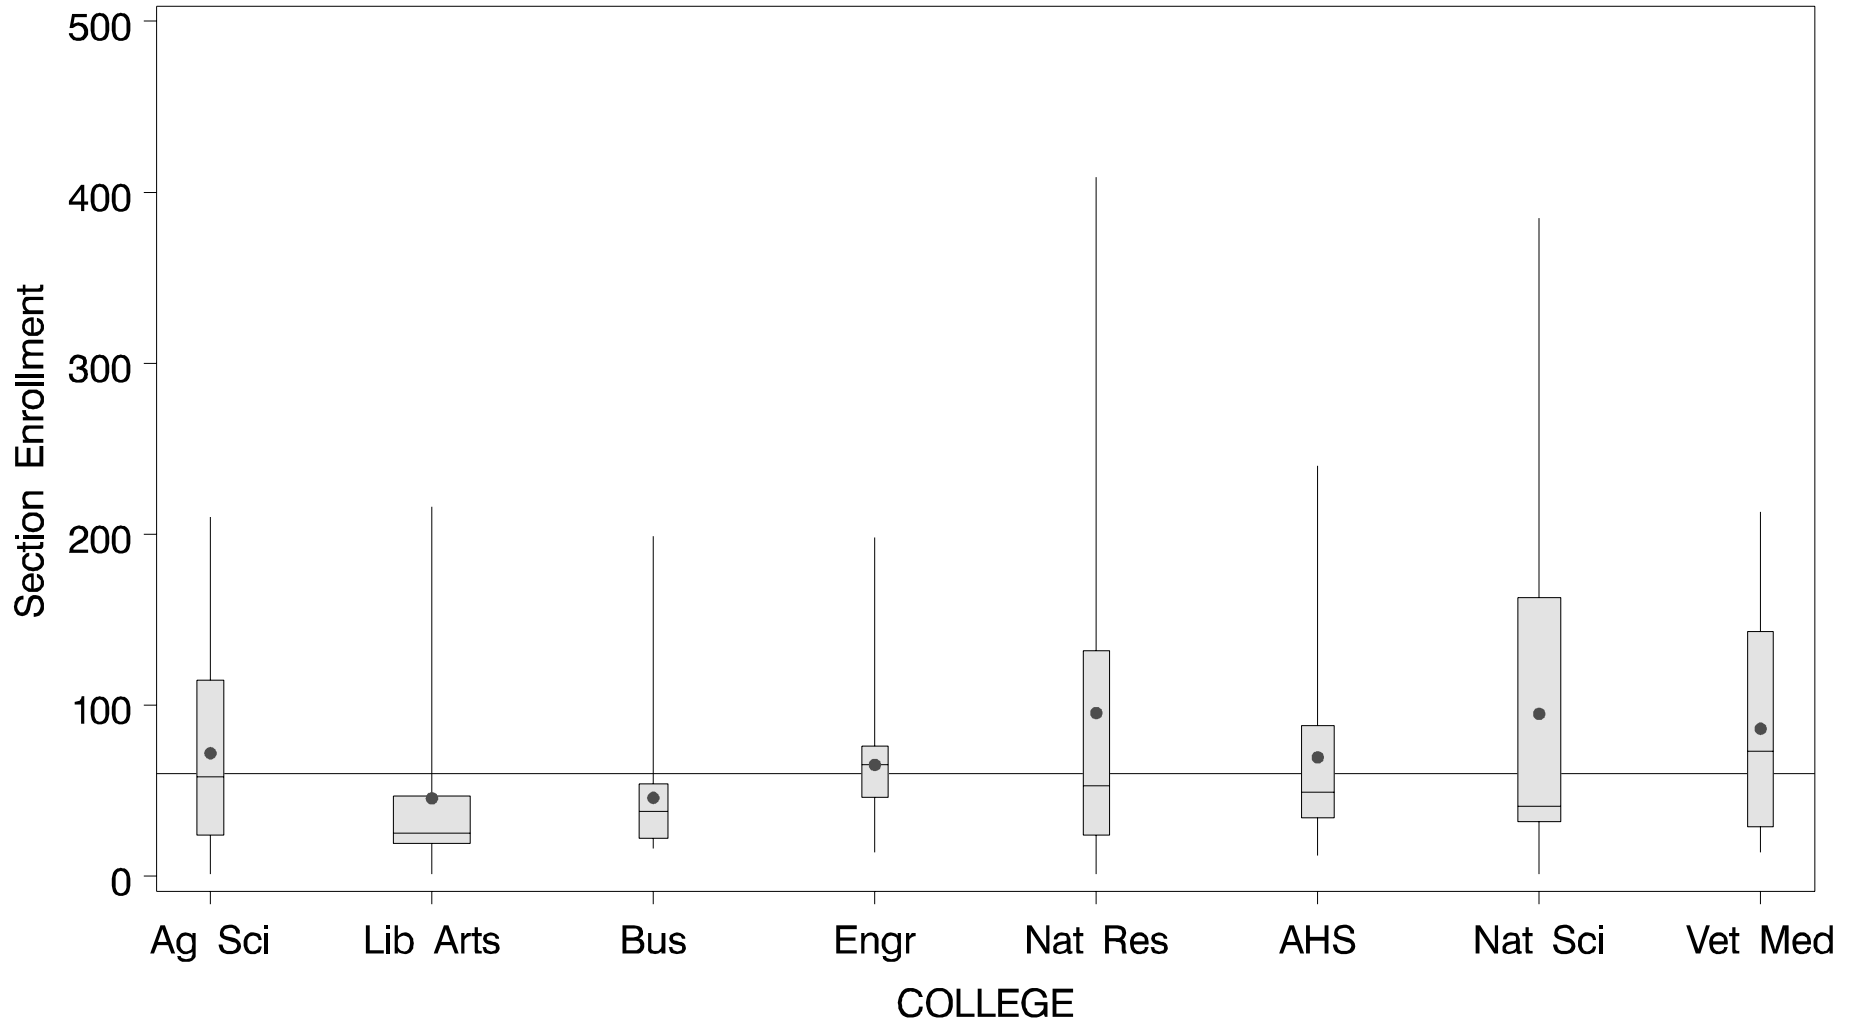

The *Class Size Report* provides class size information for the 1999-00 academic year by department and college. In order to provide more detailed information about the size of classes, a widely-used technique called a “box and whisker” diagram is used. Shown below is an example of the box and whisker diagram and the summary statistics.

Note: A subgroup is the number of courses in a department or college

Lecture Class Size by College

Lower Div Courses – Academic Year 1999–00

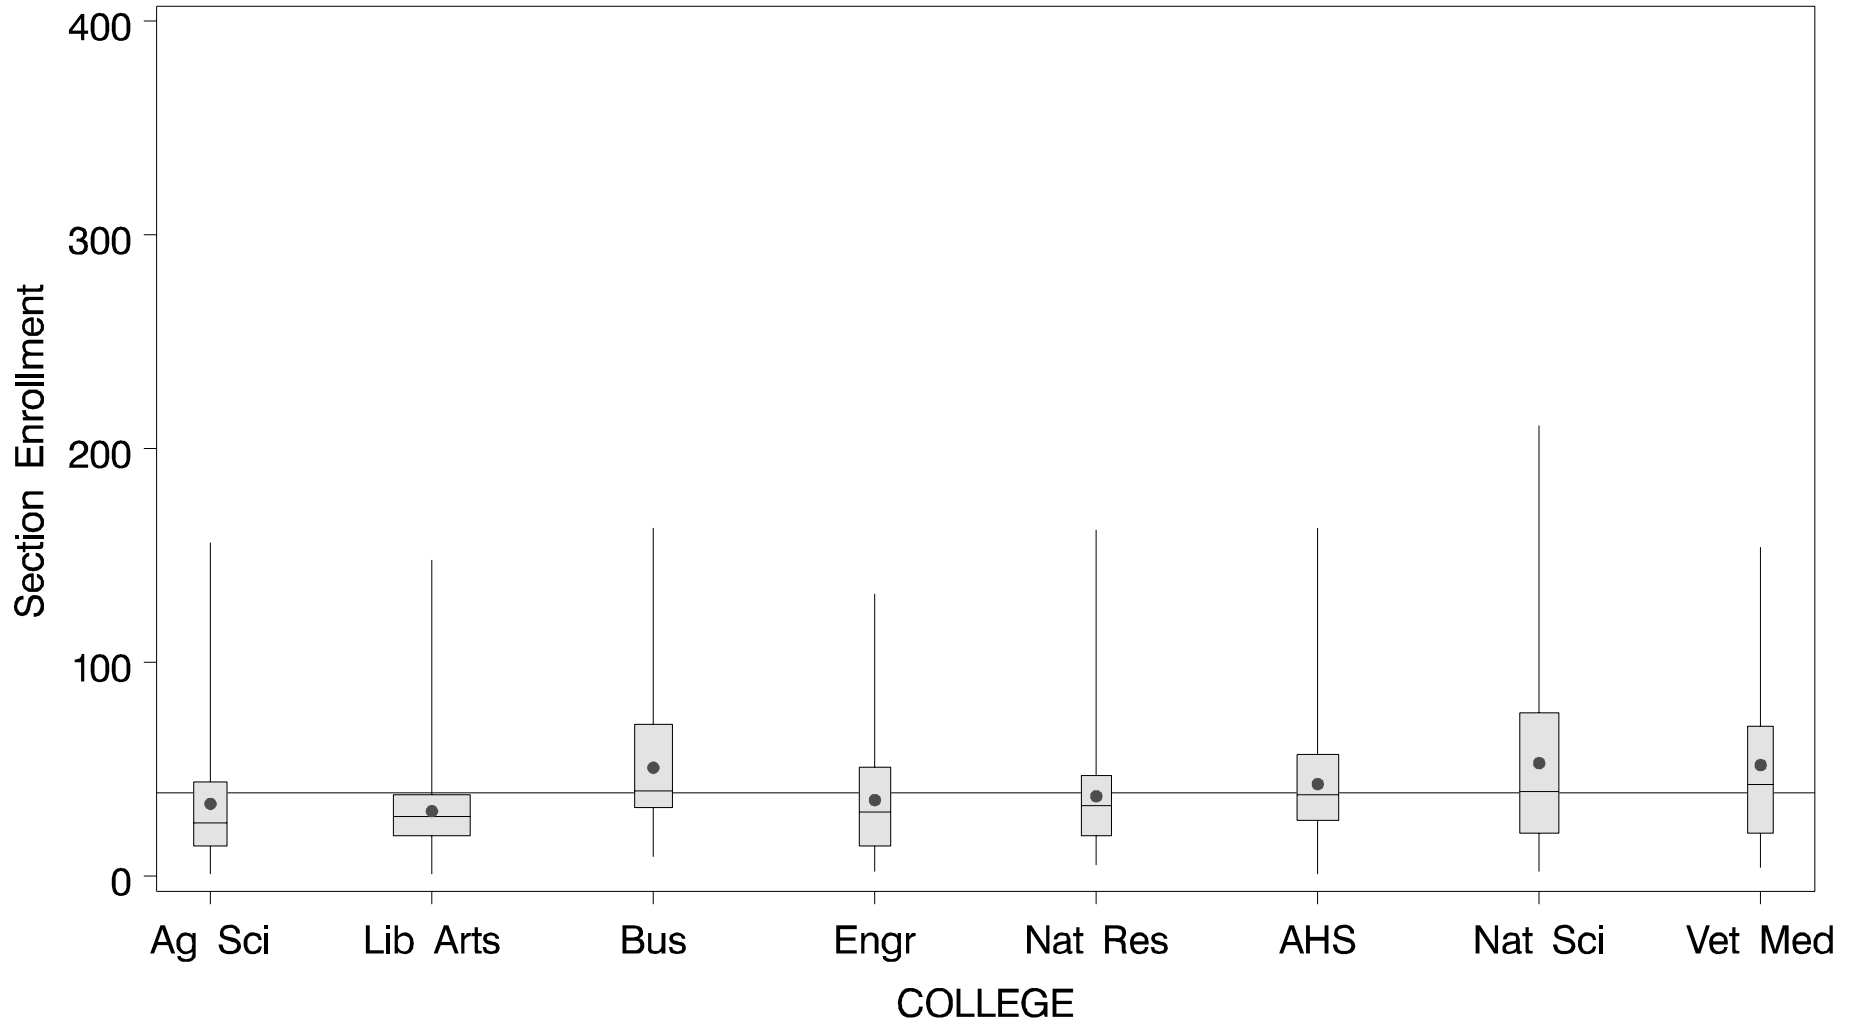

Subgroup Sizes: Min n=20 Max n=848

Box width varies with n

● indicates MEAN

Lecture Class Size by College

Upper Div Courses – Academic Year 1999–00

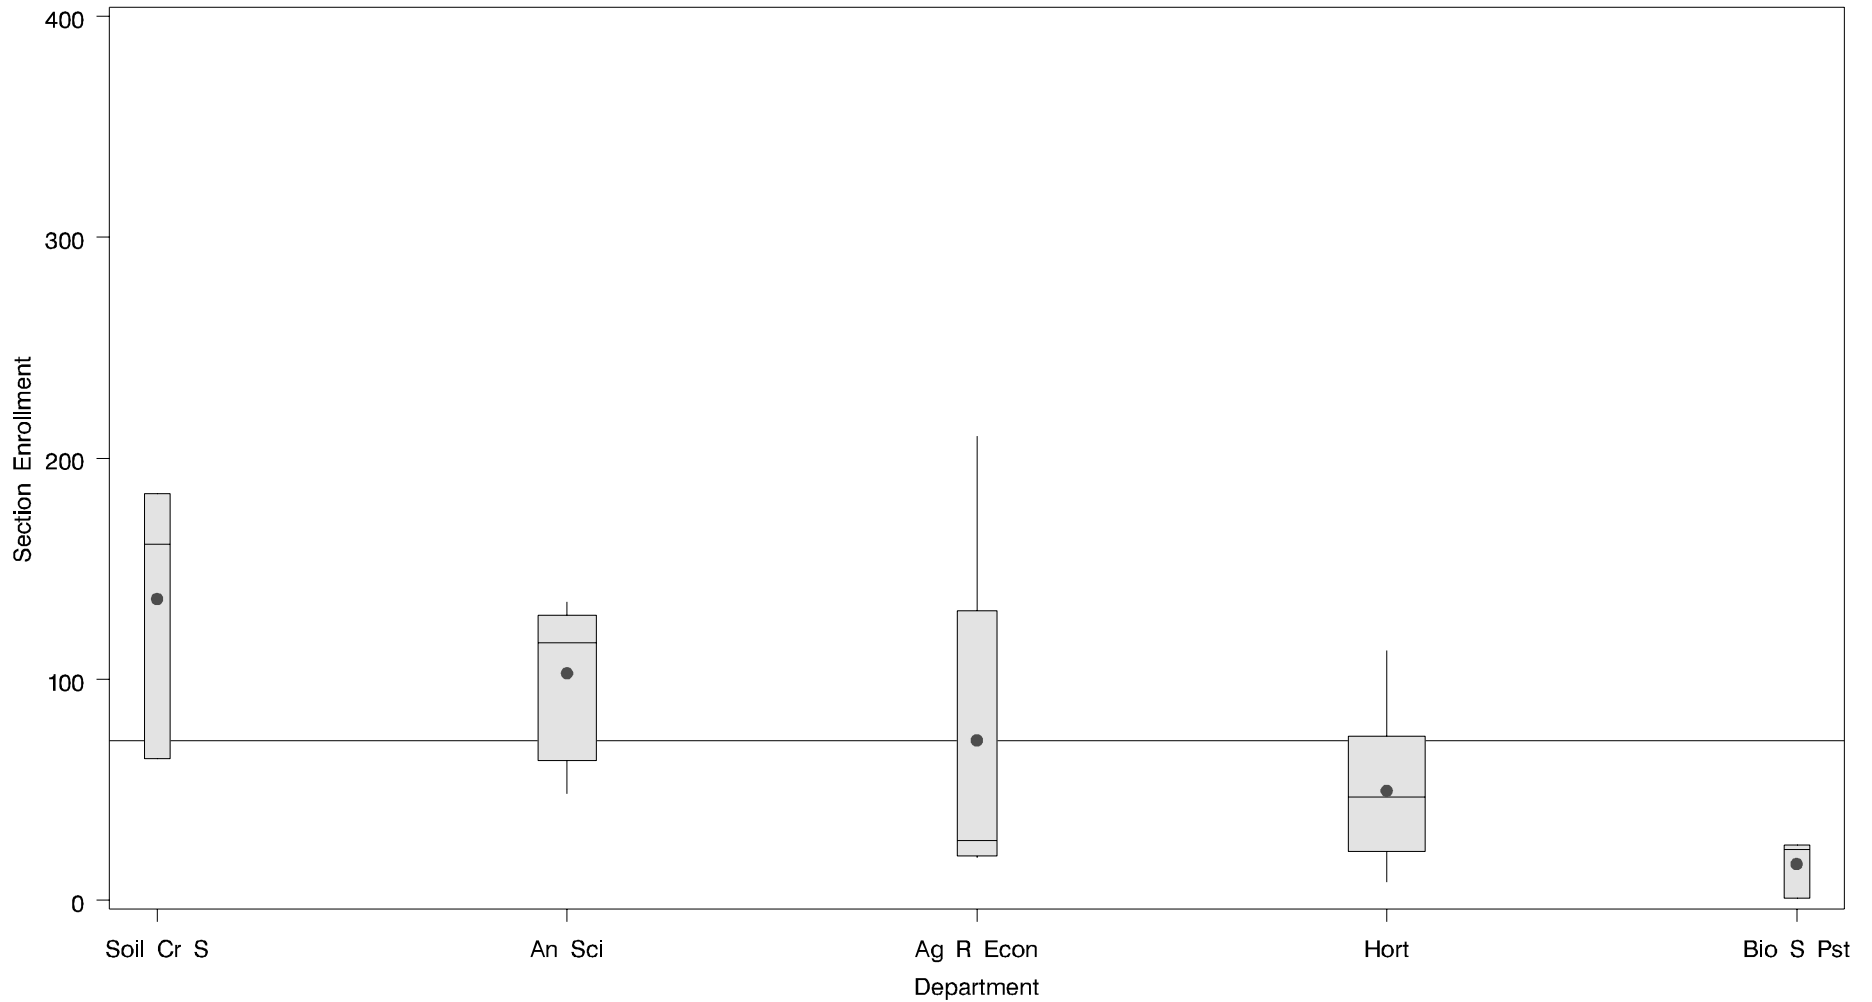

Subgroup Sizes: Min n=65 Max n=519 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Agricultural Sciences

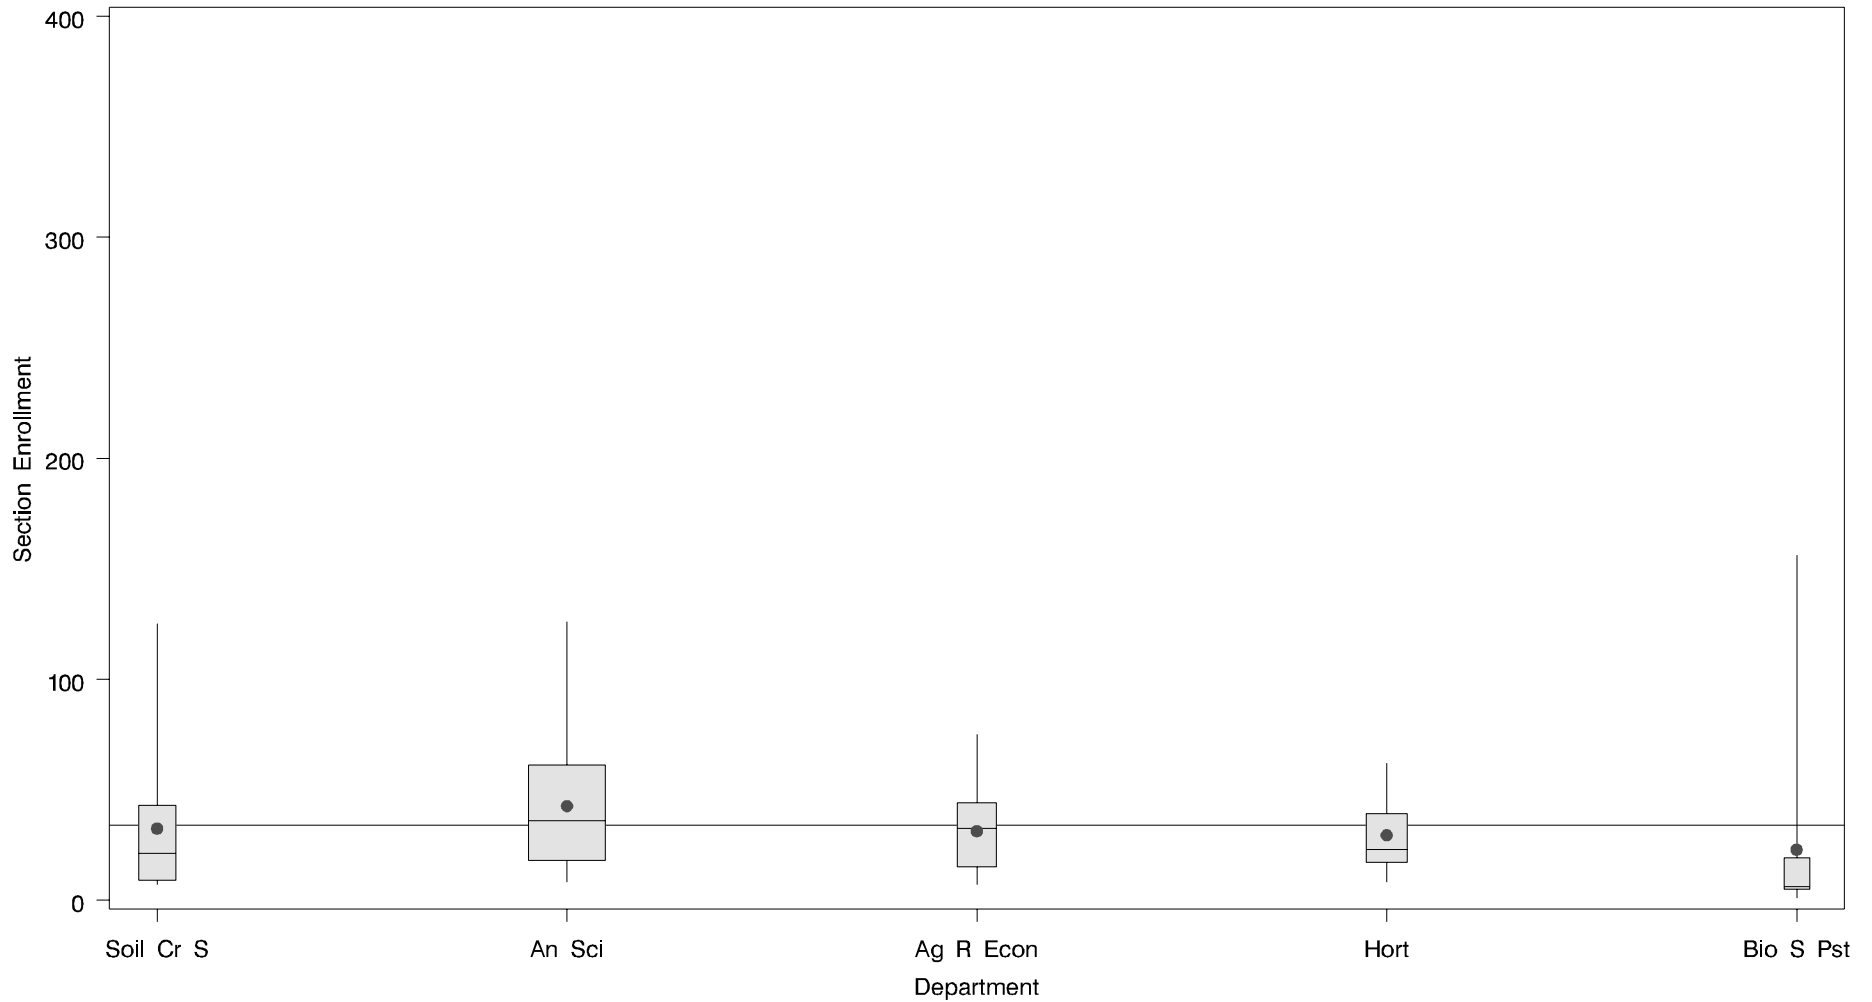

Subgroup Sizes: Min n=3 Max n=14 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Agricultural Sciences

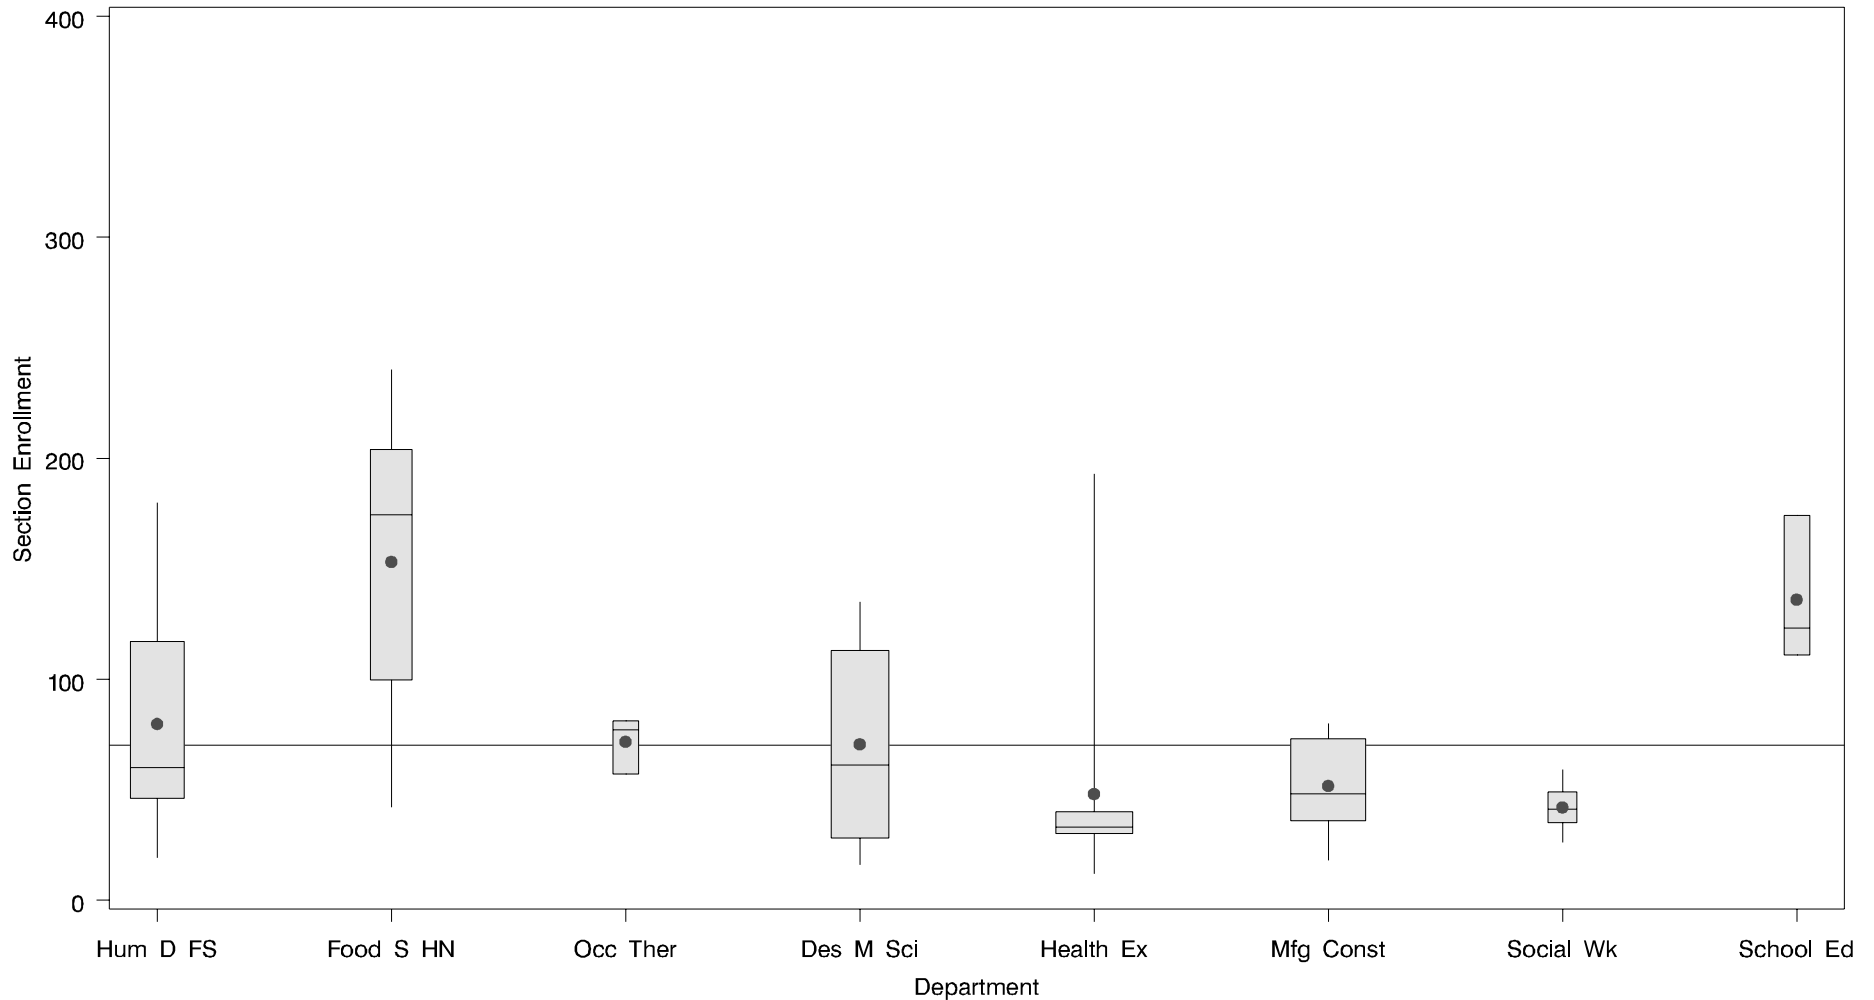

Subgroup Sizes: Min n=17 Max n=43 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Applied Human Sciences

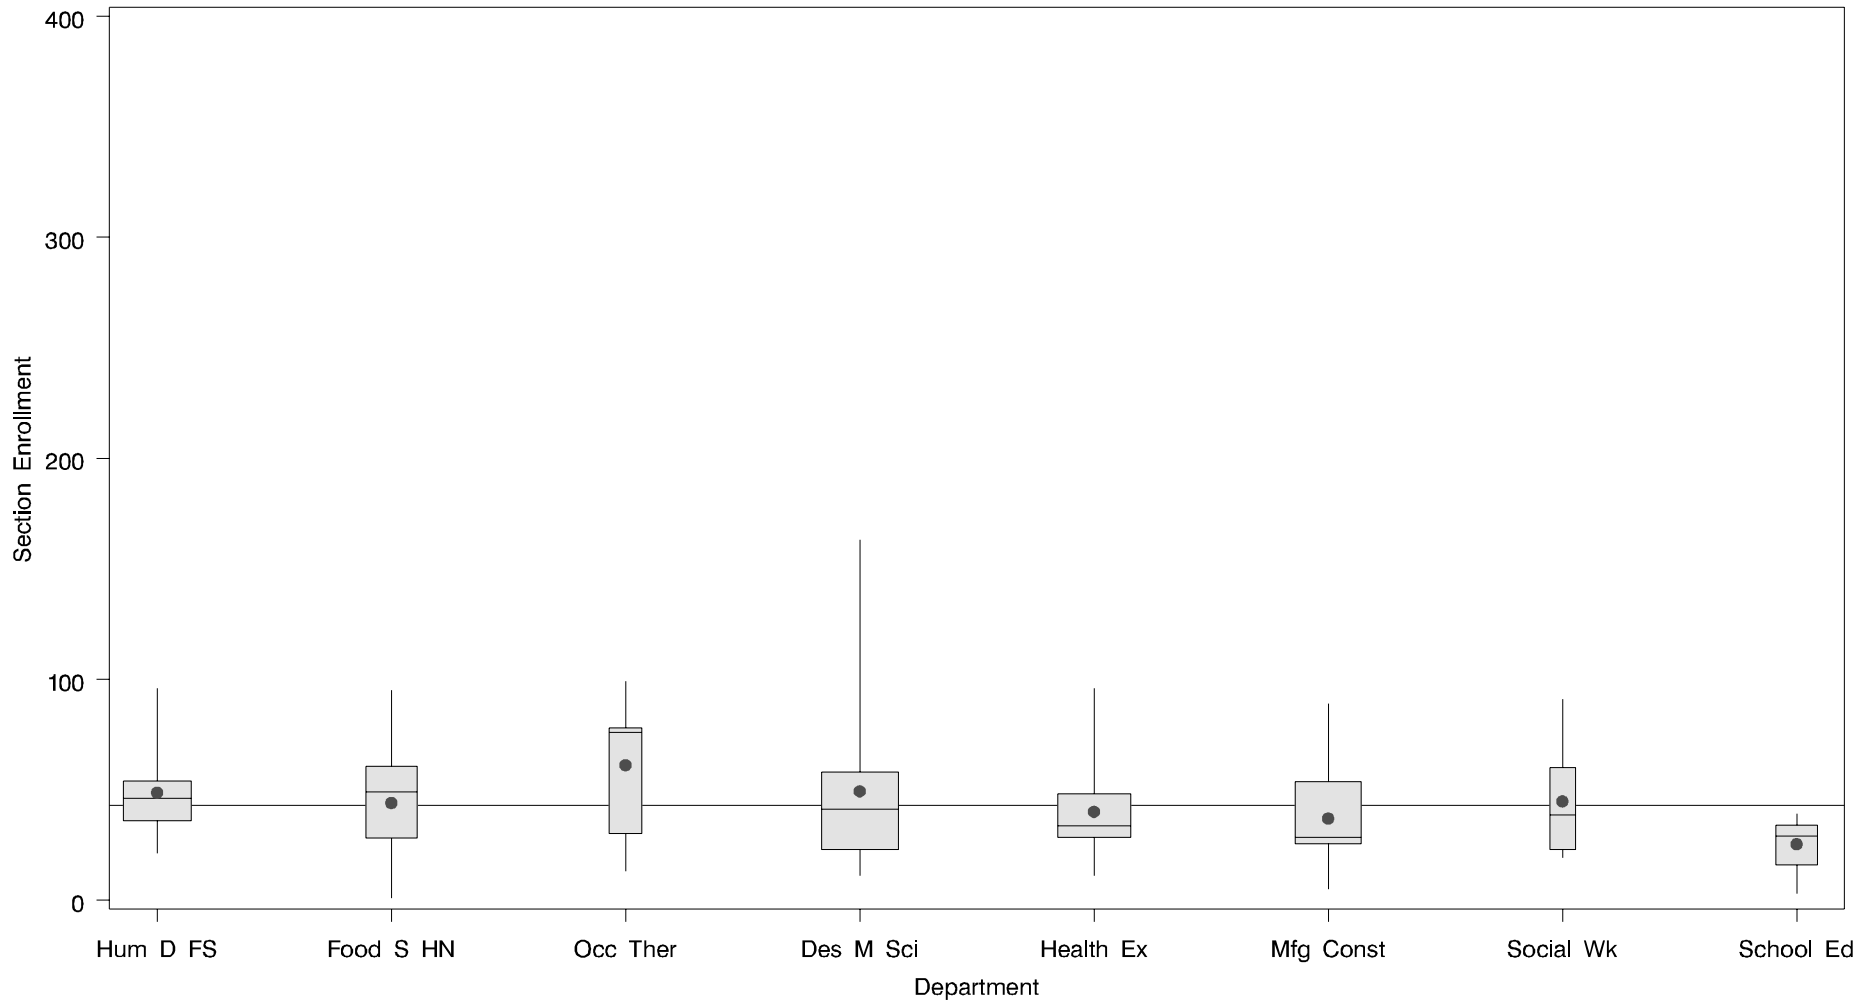

Subgroup Sizes: Min n=3 Max n=32 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Applied Human Sciences

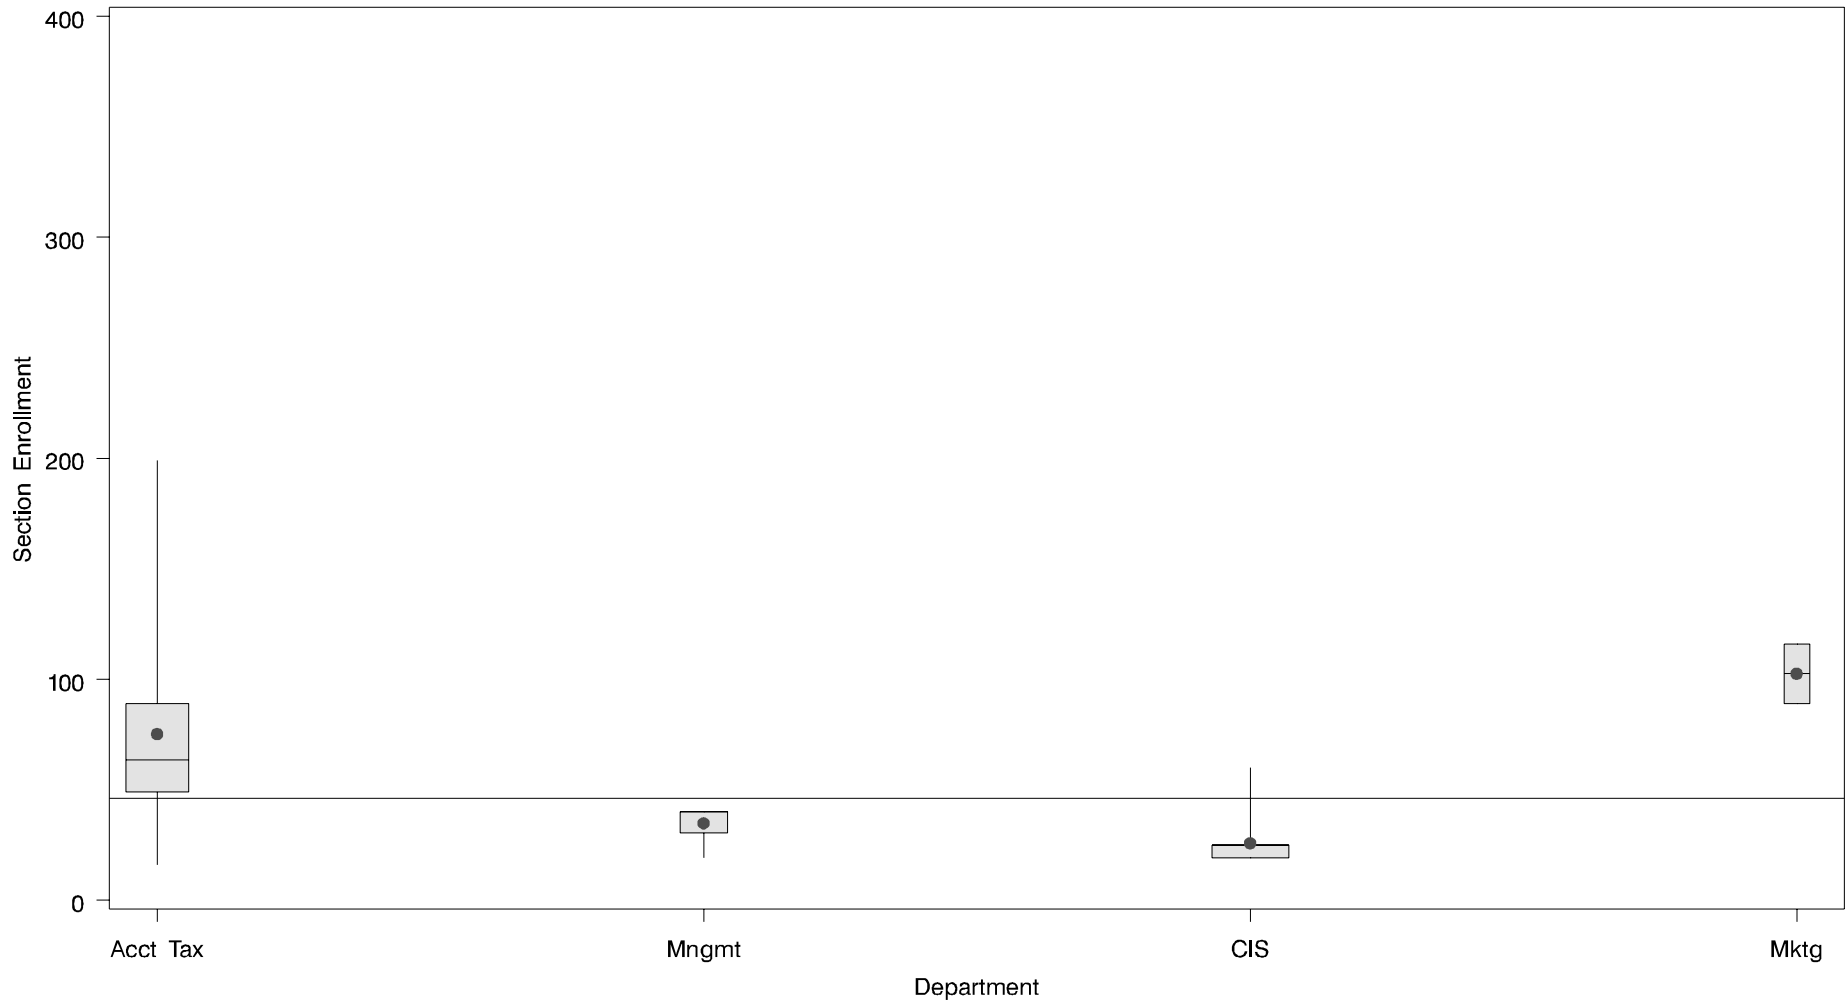

Subgroup Sizes: Min n=10 Max n=38 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Business

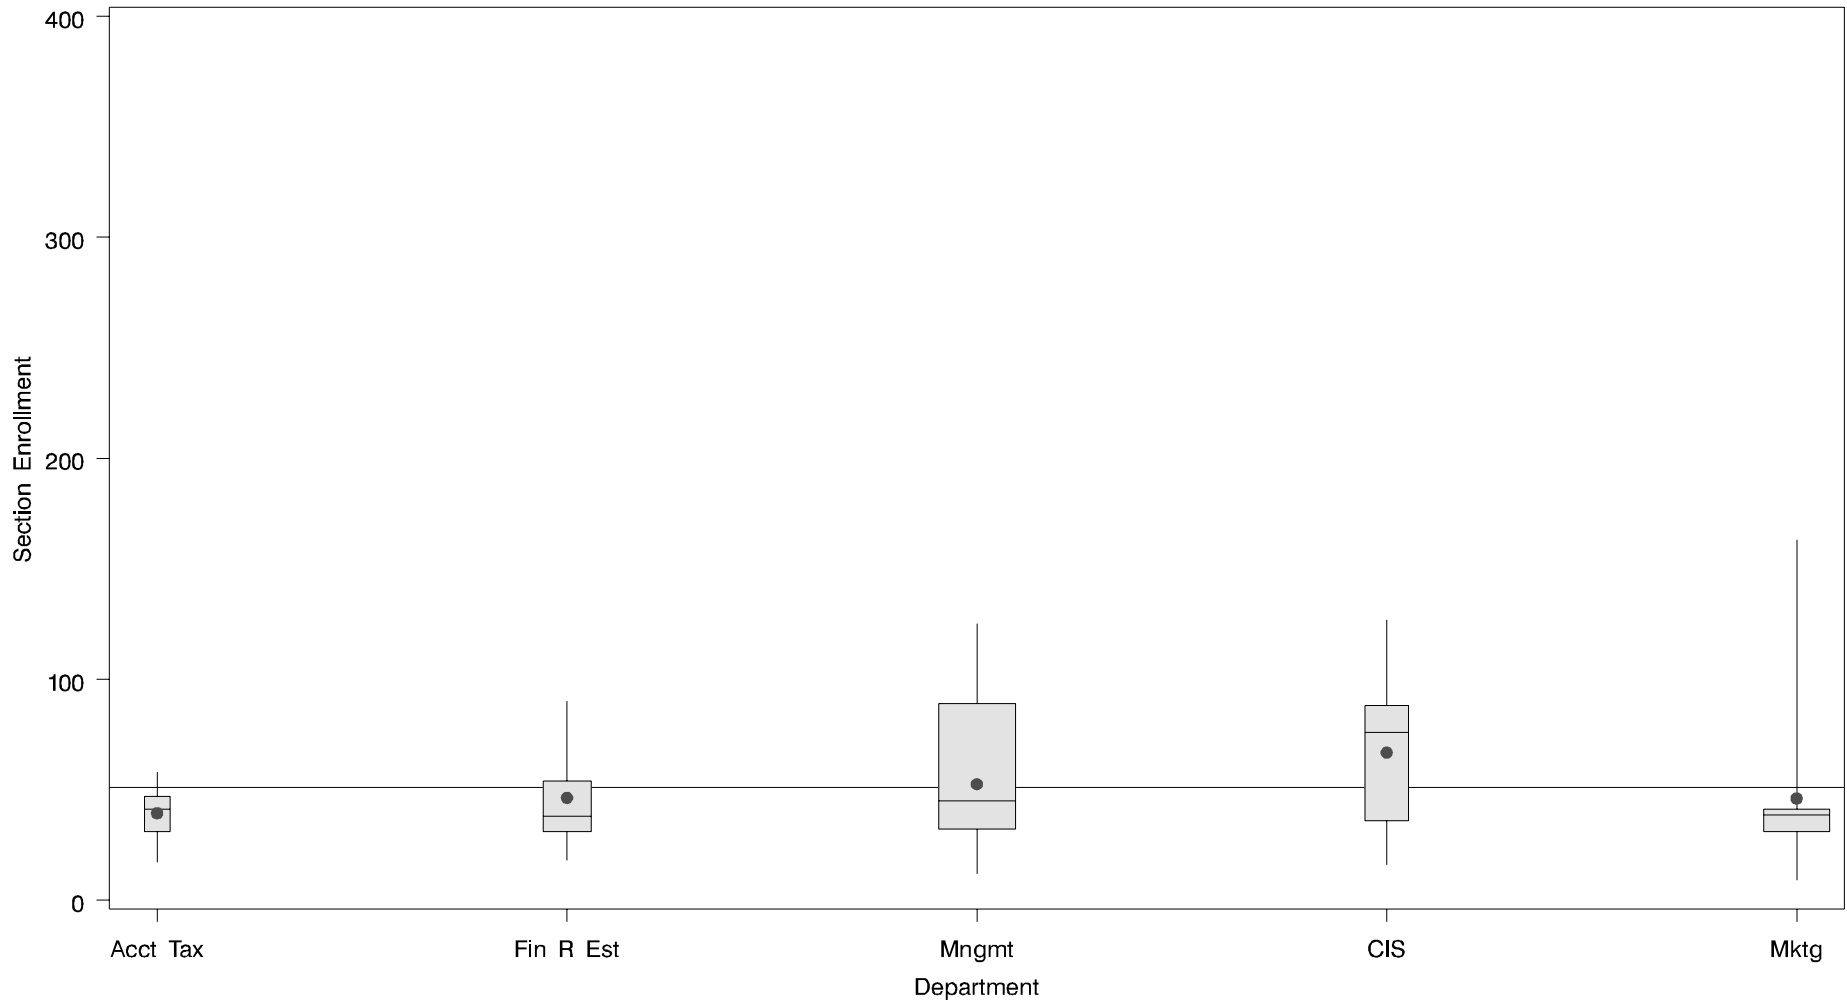

Subgroup Sizes: Min n=2 Max n=35 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Business

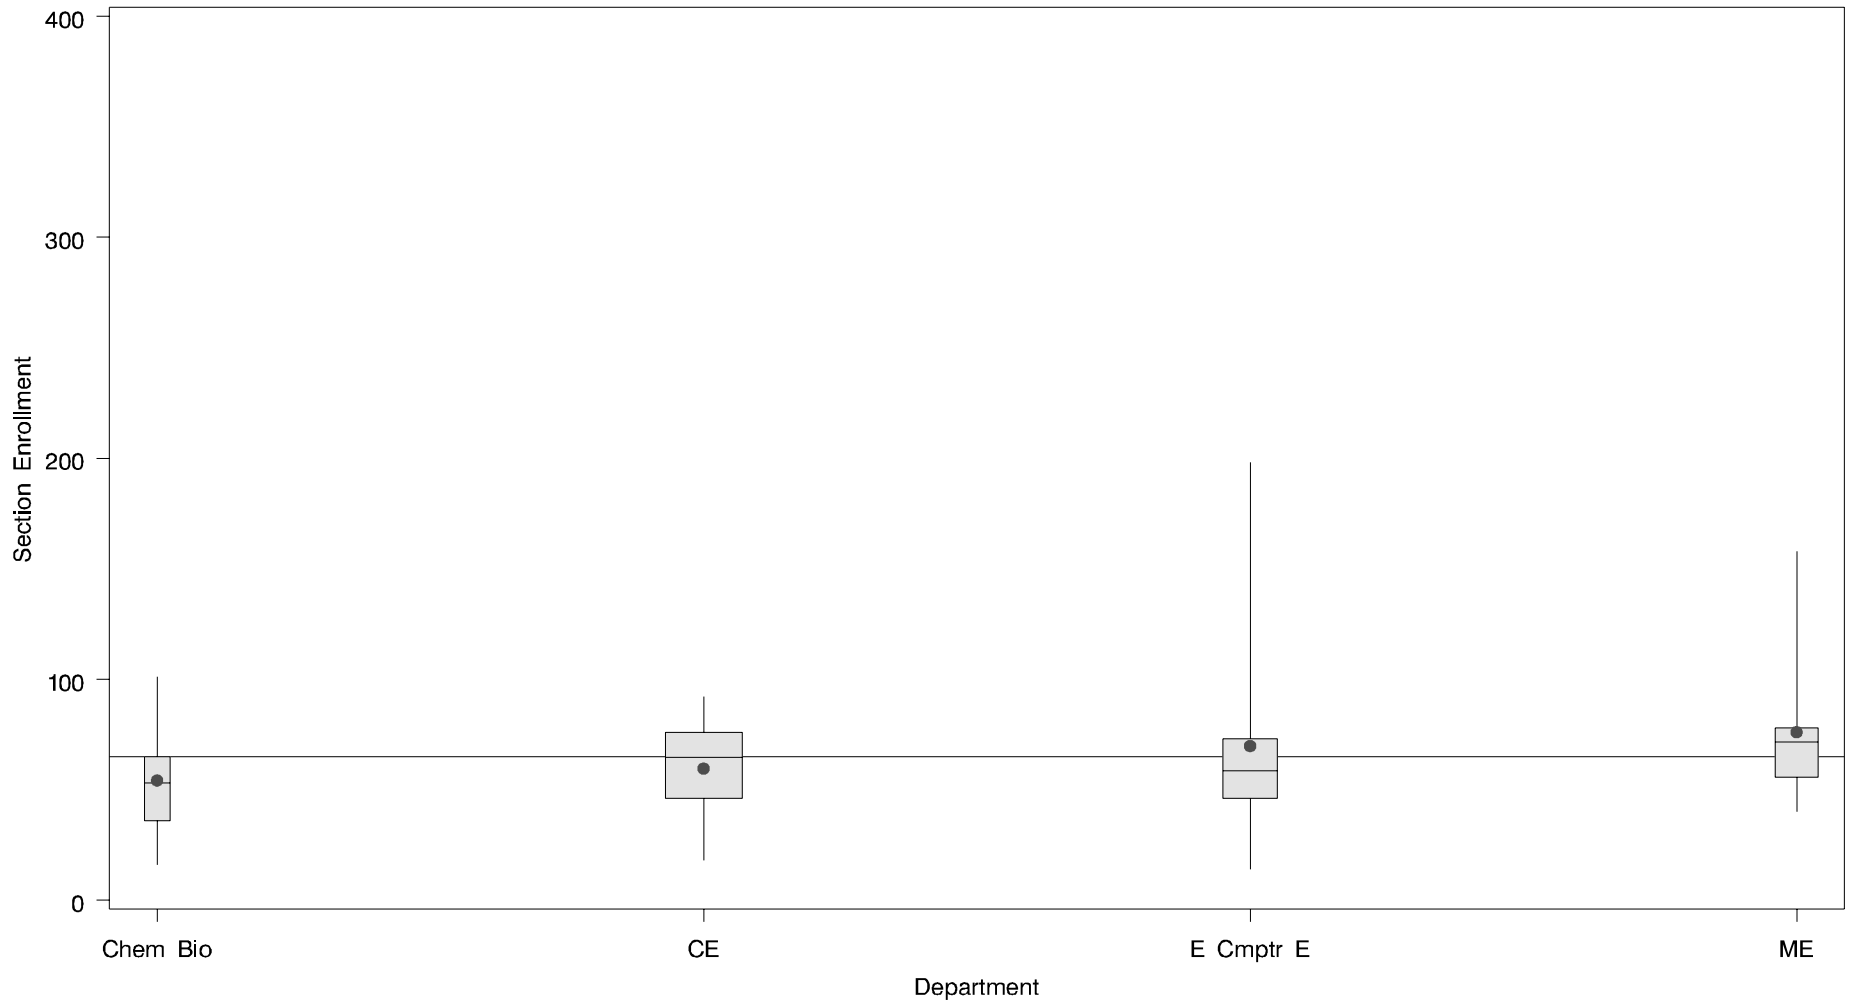

Subgroup Sizes: Min n=19 Max n=51 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Engineering

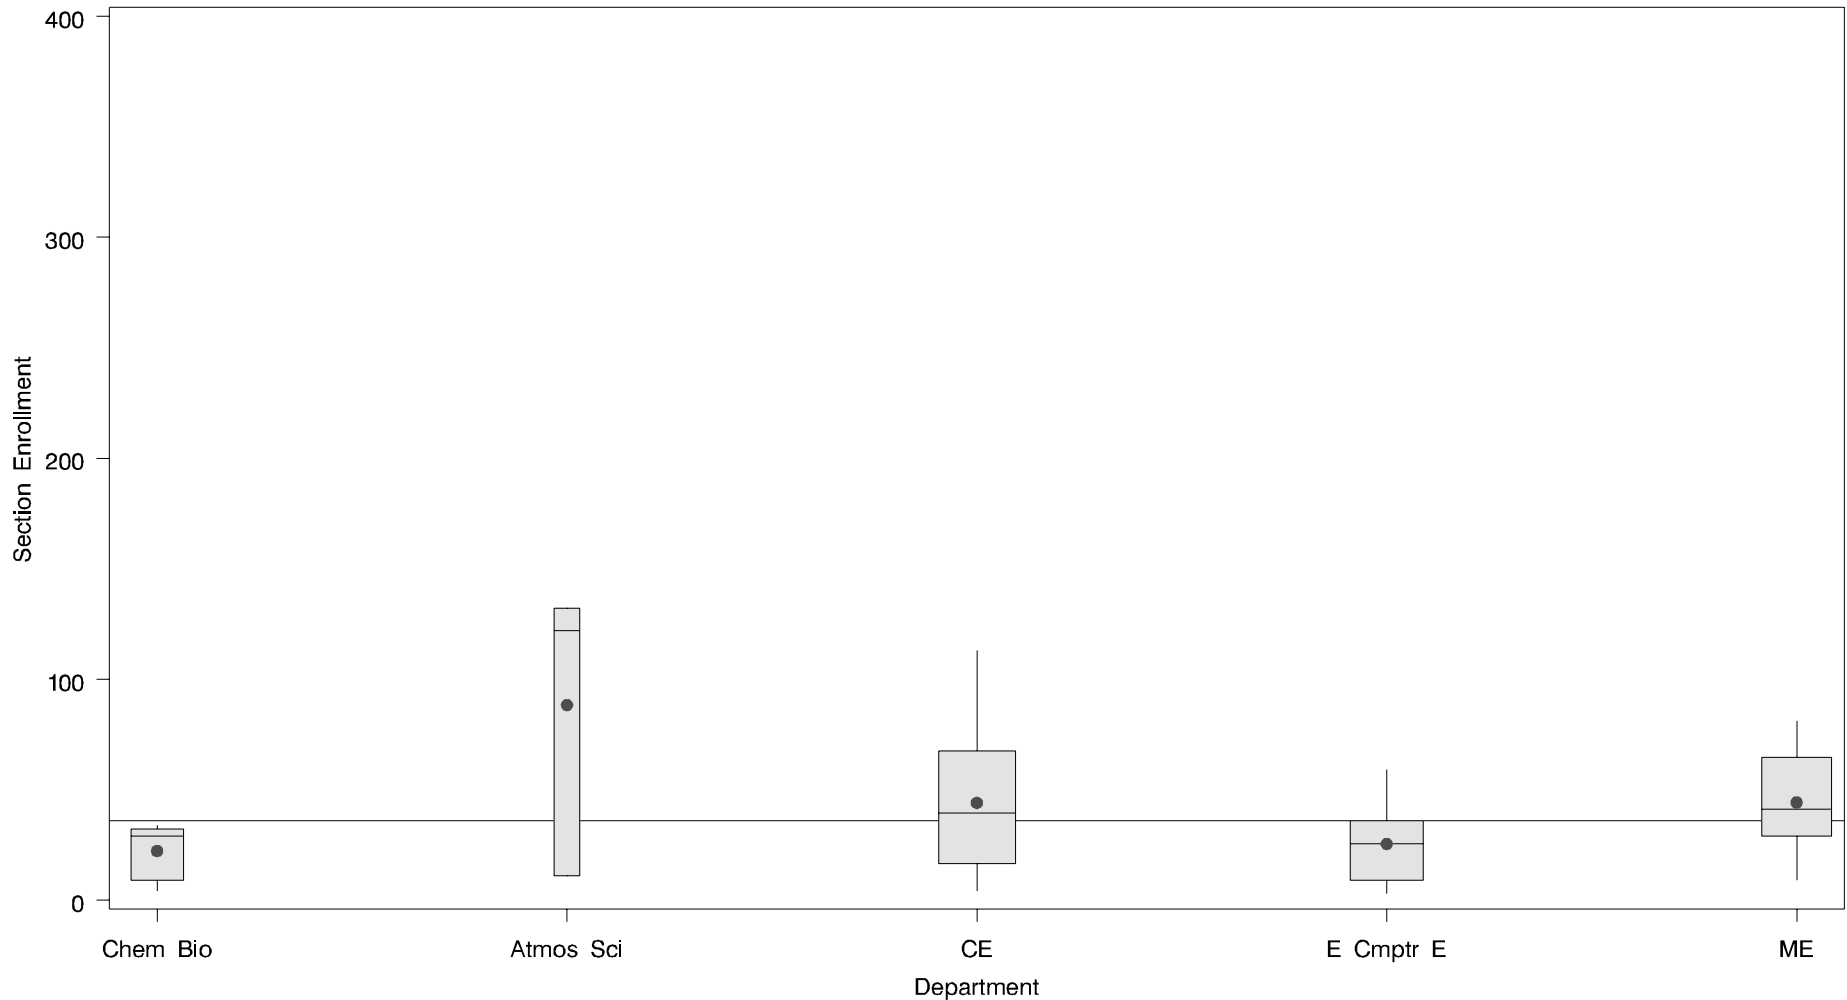

Subgroup Sizes: Min n=5 Max n=14 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Engineering

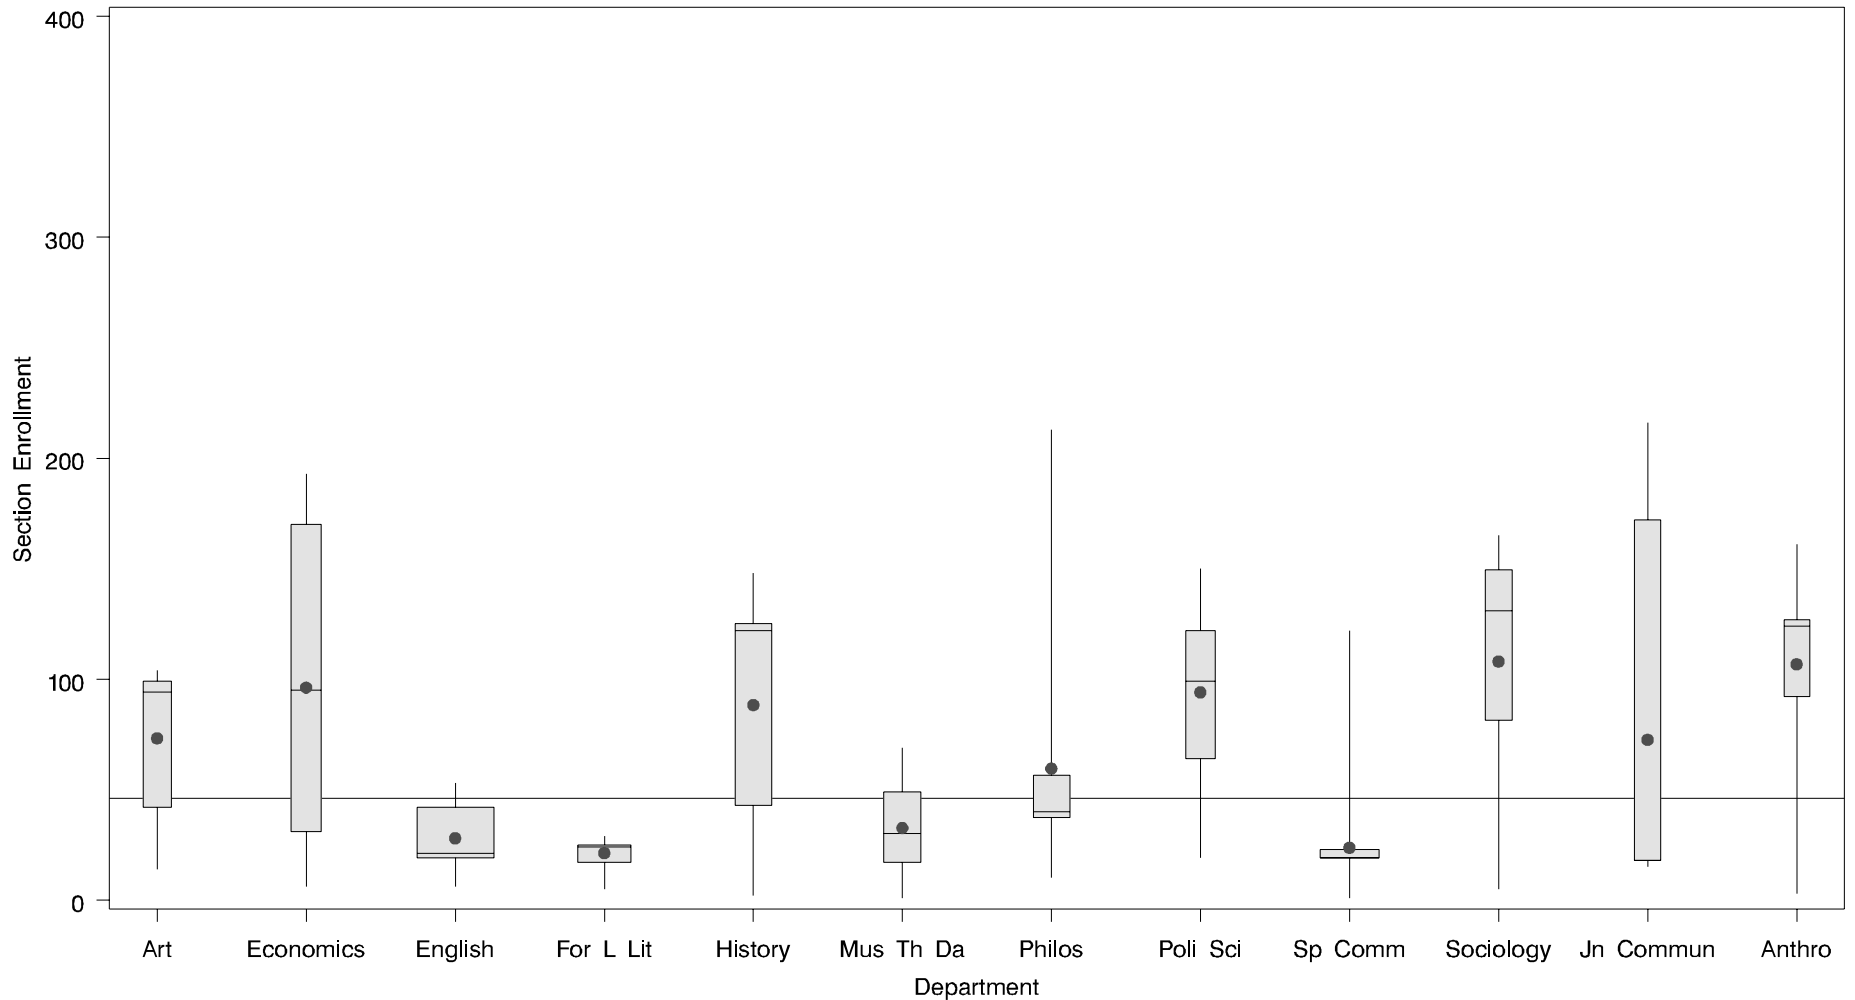

Subgroup Sizes: Min n=3 Max n=32 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Liberal Arts

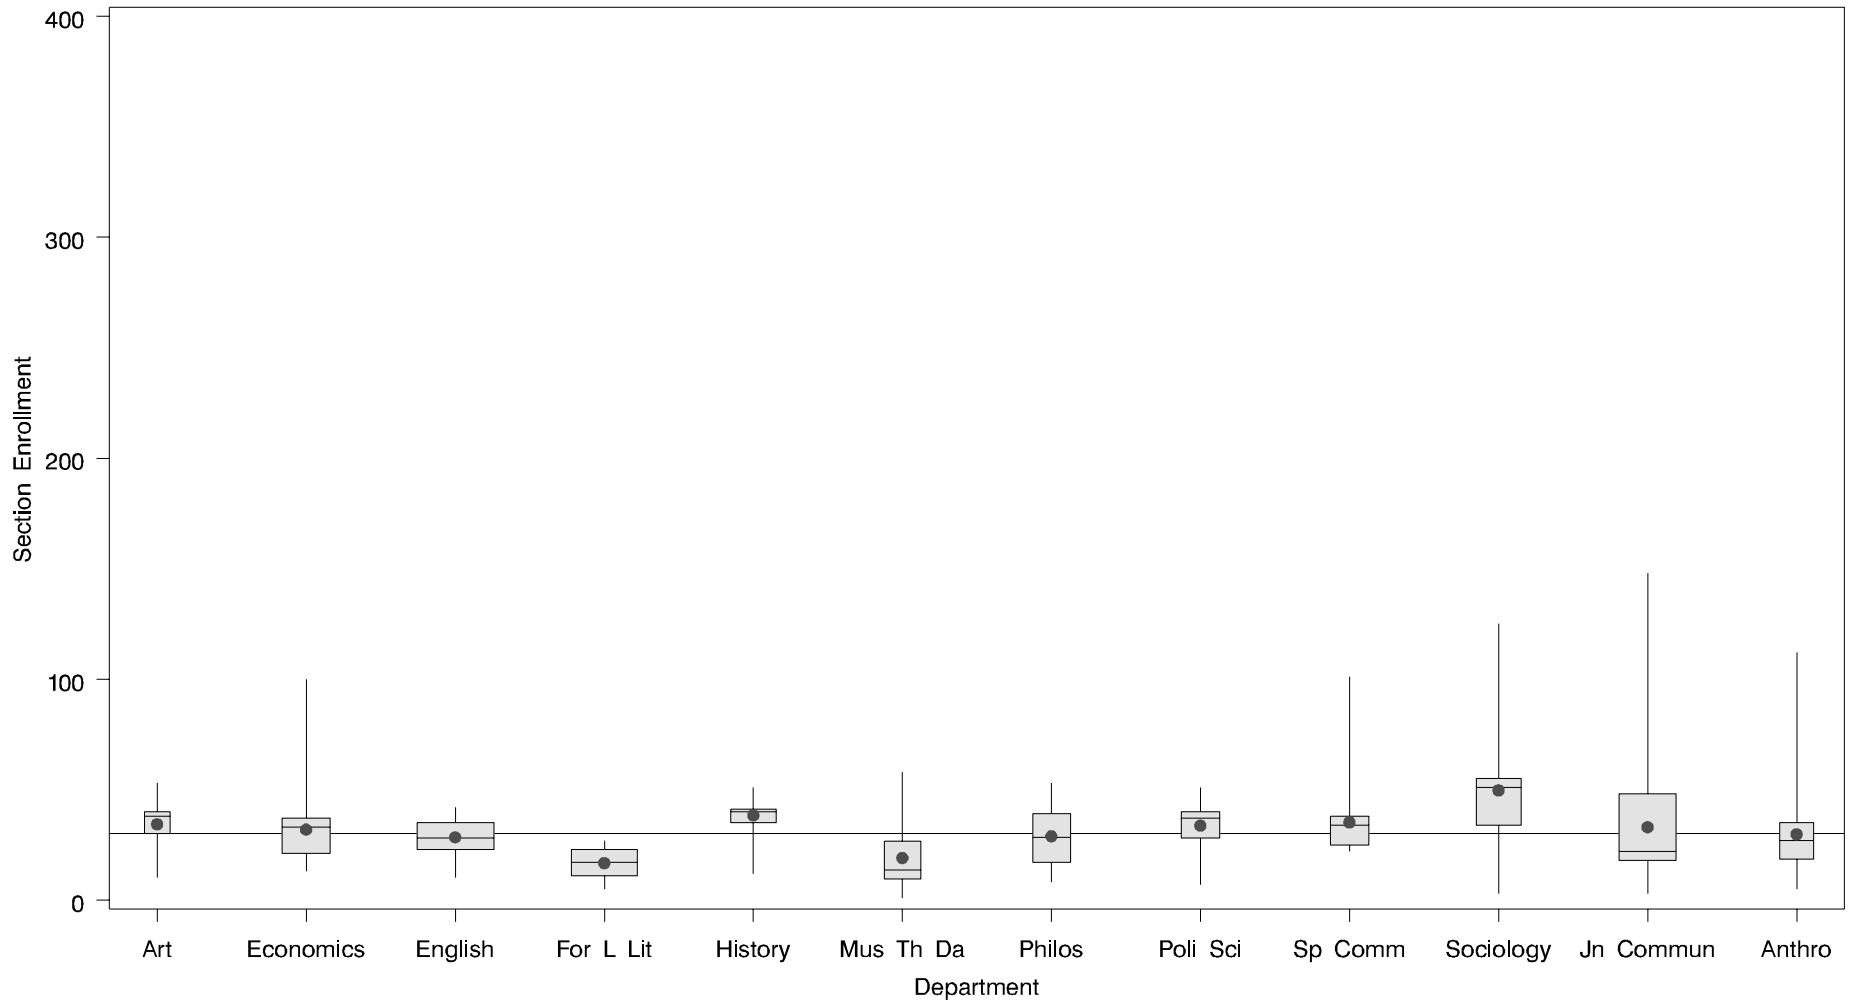

Subgroup Sizes: Min n=19 Max n=210

Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Liberal Arts

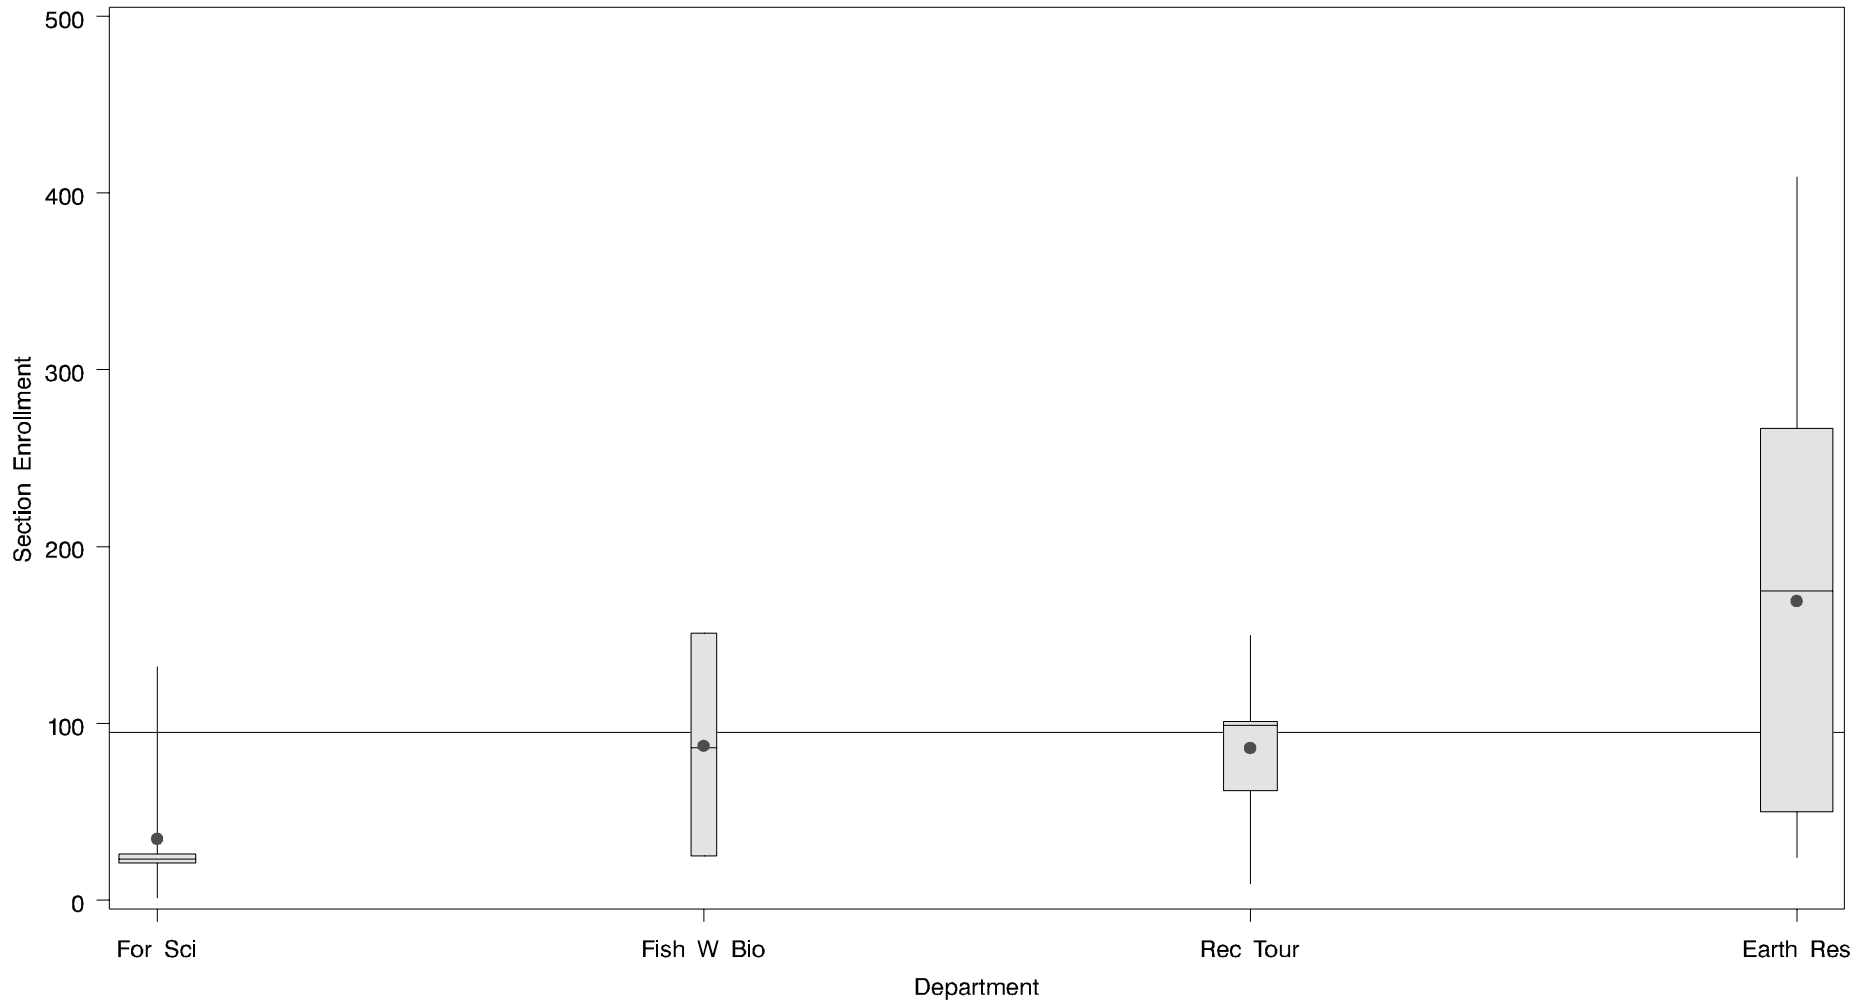

Subgroup Sizes: Min n=11 Max n=90 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Natural Resources

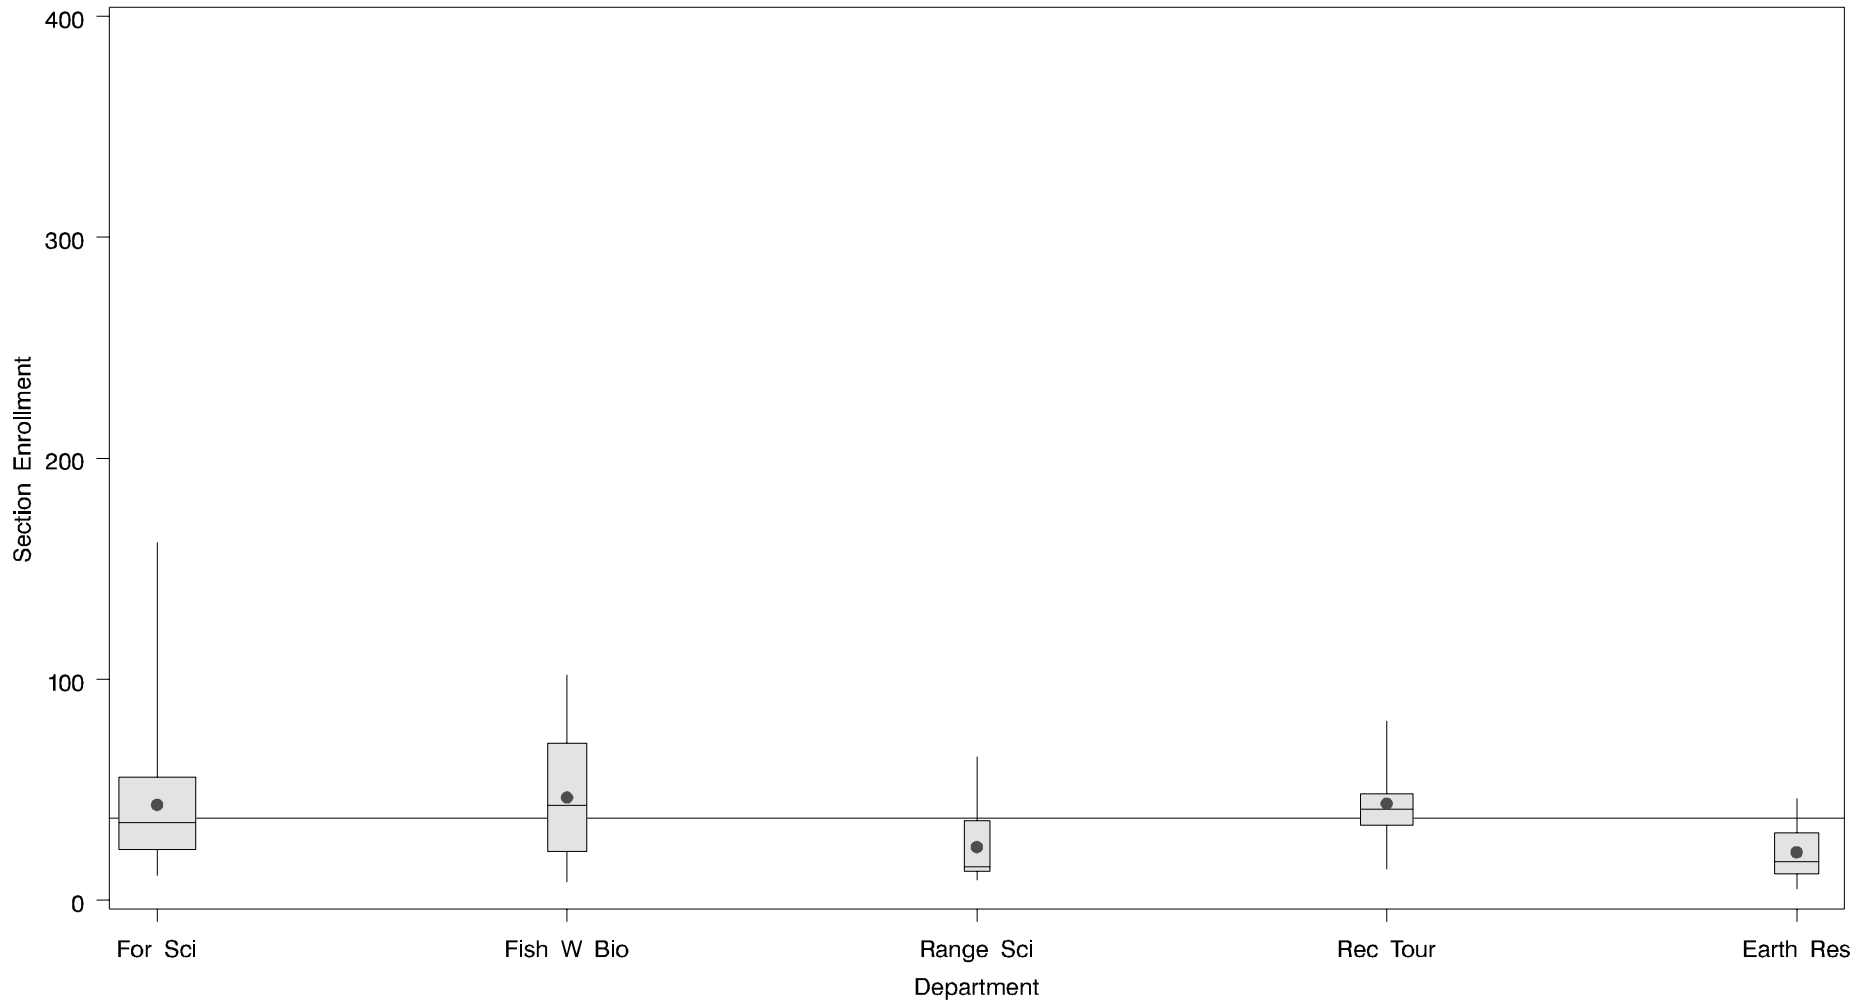

Subgroup Sizes: Min n=3 Max n=14 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Natural Resources

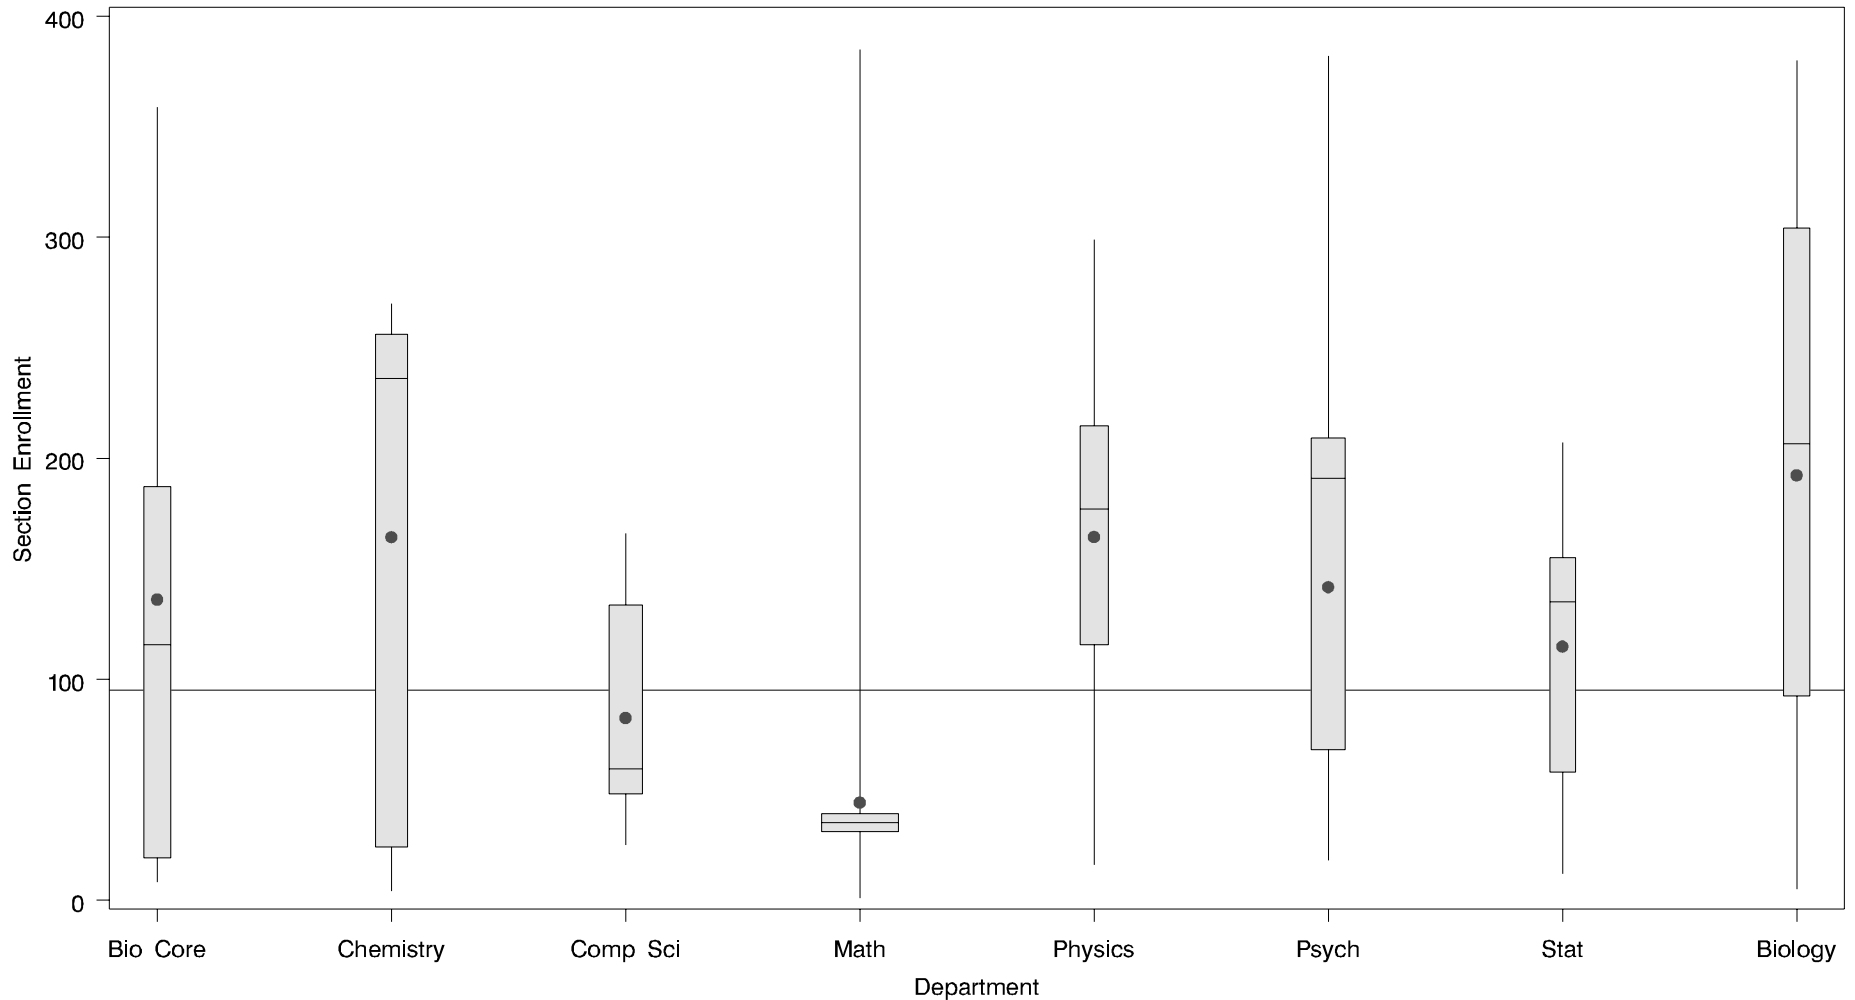

Subgroup Sizes: Min n=13 Max n=32 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Natural Sciences

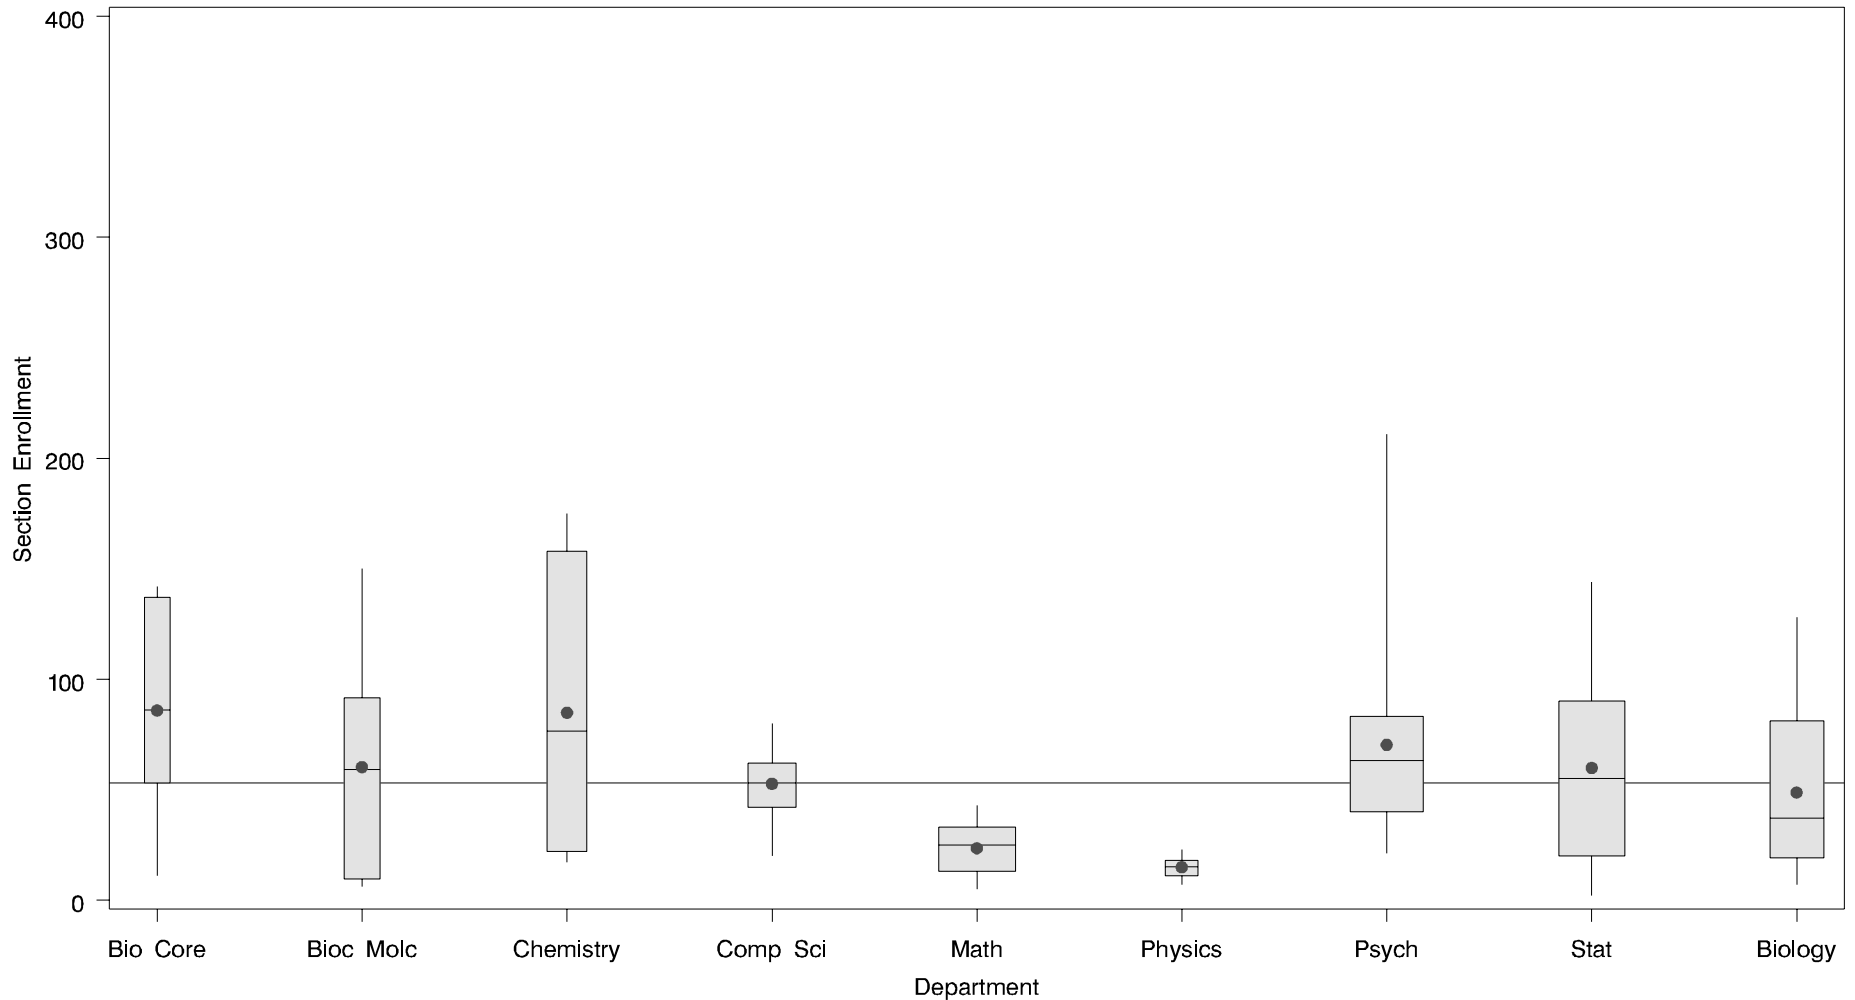

Subgroup Sizes: Min n=14 Max n=135

Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Natural Sciences

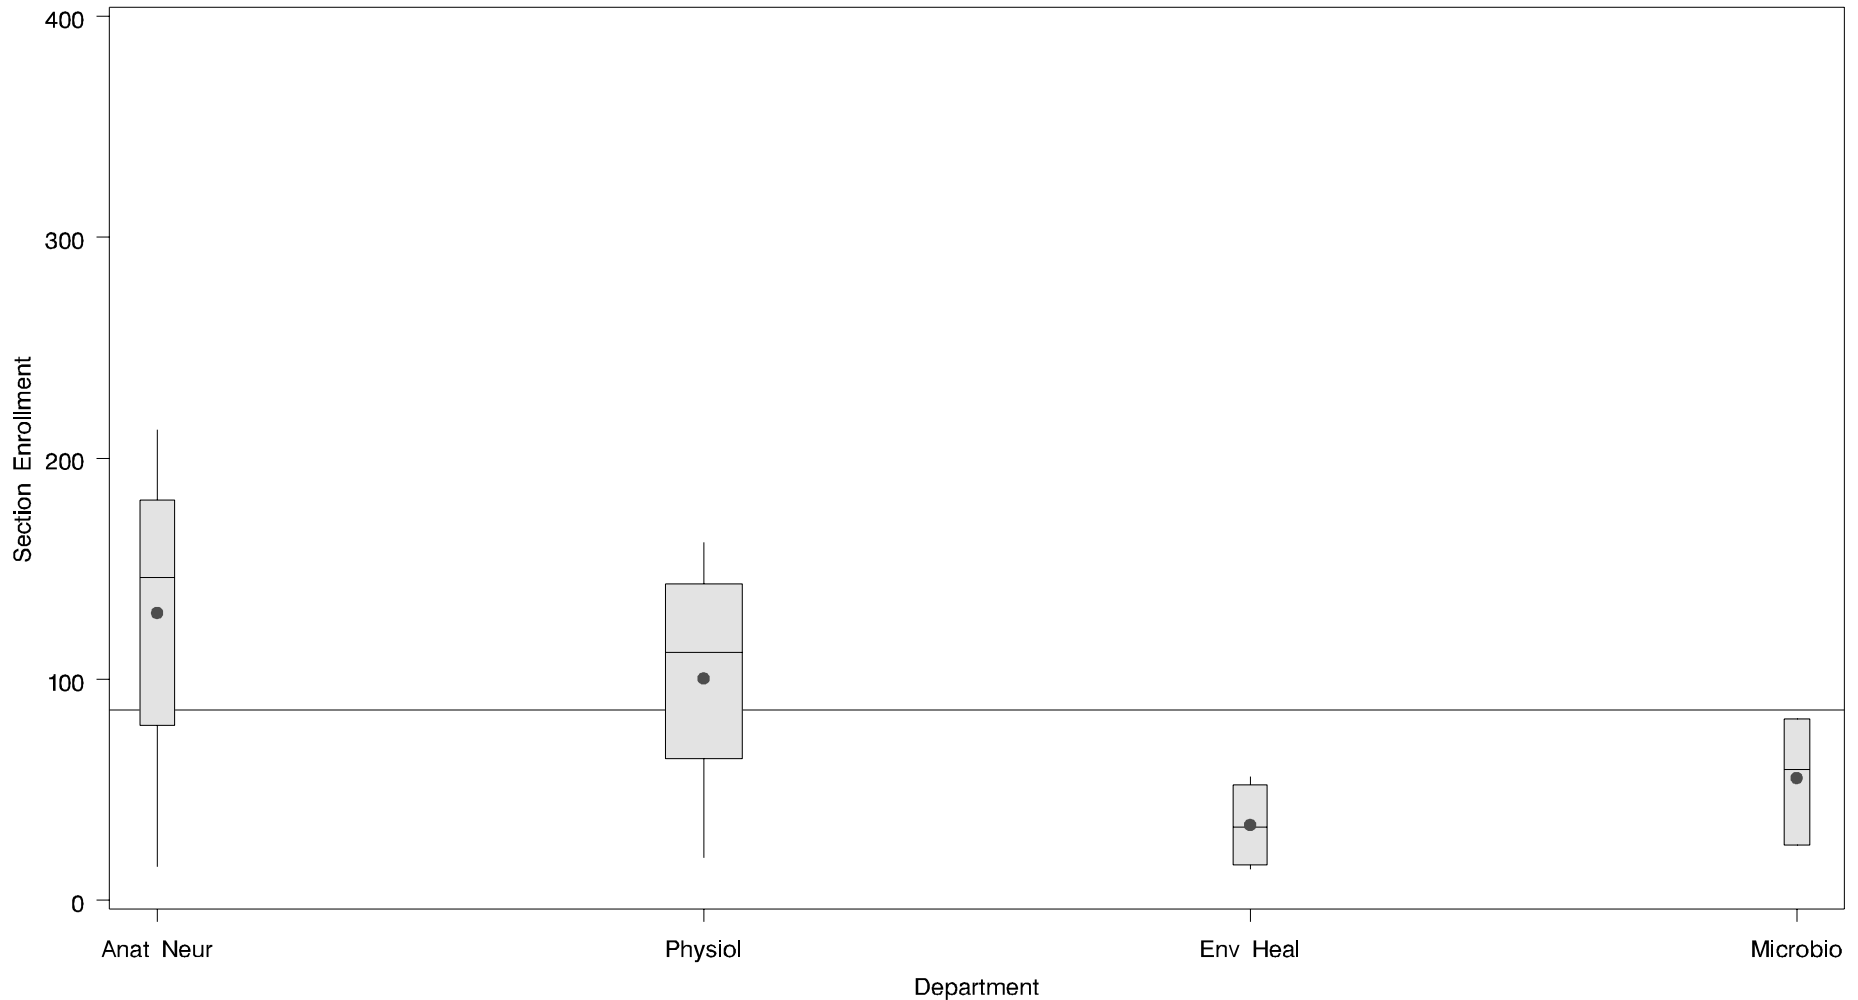

Subgroup Sizes: Min n=6 Max n=35 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Lower Div Courses – Academic Year 1999–00
Veterinary Medicine + Biomedical Sci

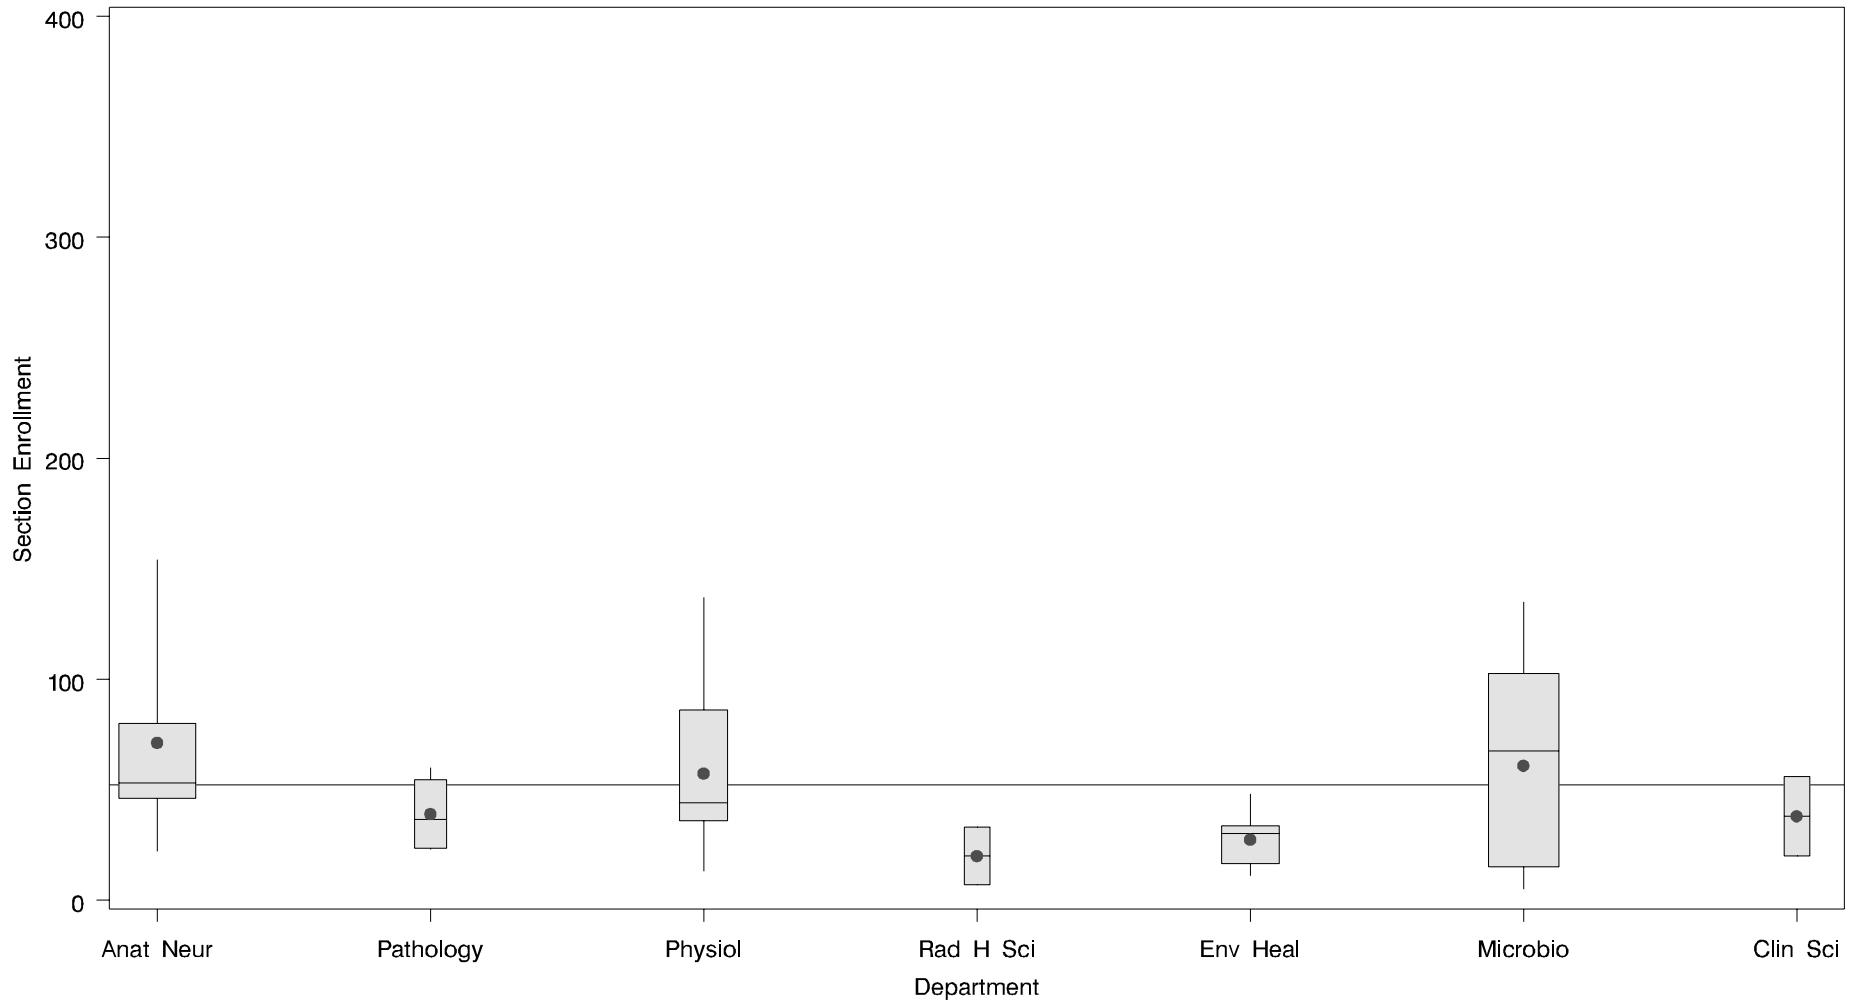

Subgroup Sizes: Min n=3 Max n=9 Box width varies with n

● indicates MEAN

Lecture Class Size by Department

Upper Div Courses – Academic Year 1999–00
Veterinary Medicine + Biomedical Sci

Subgroup Sizes: Min n=2 Max n=18 Box width varies with n

● indicates MEAN
